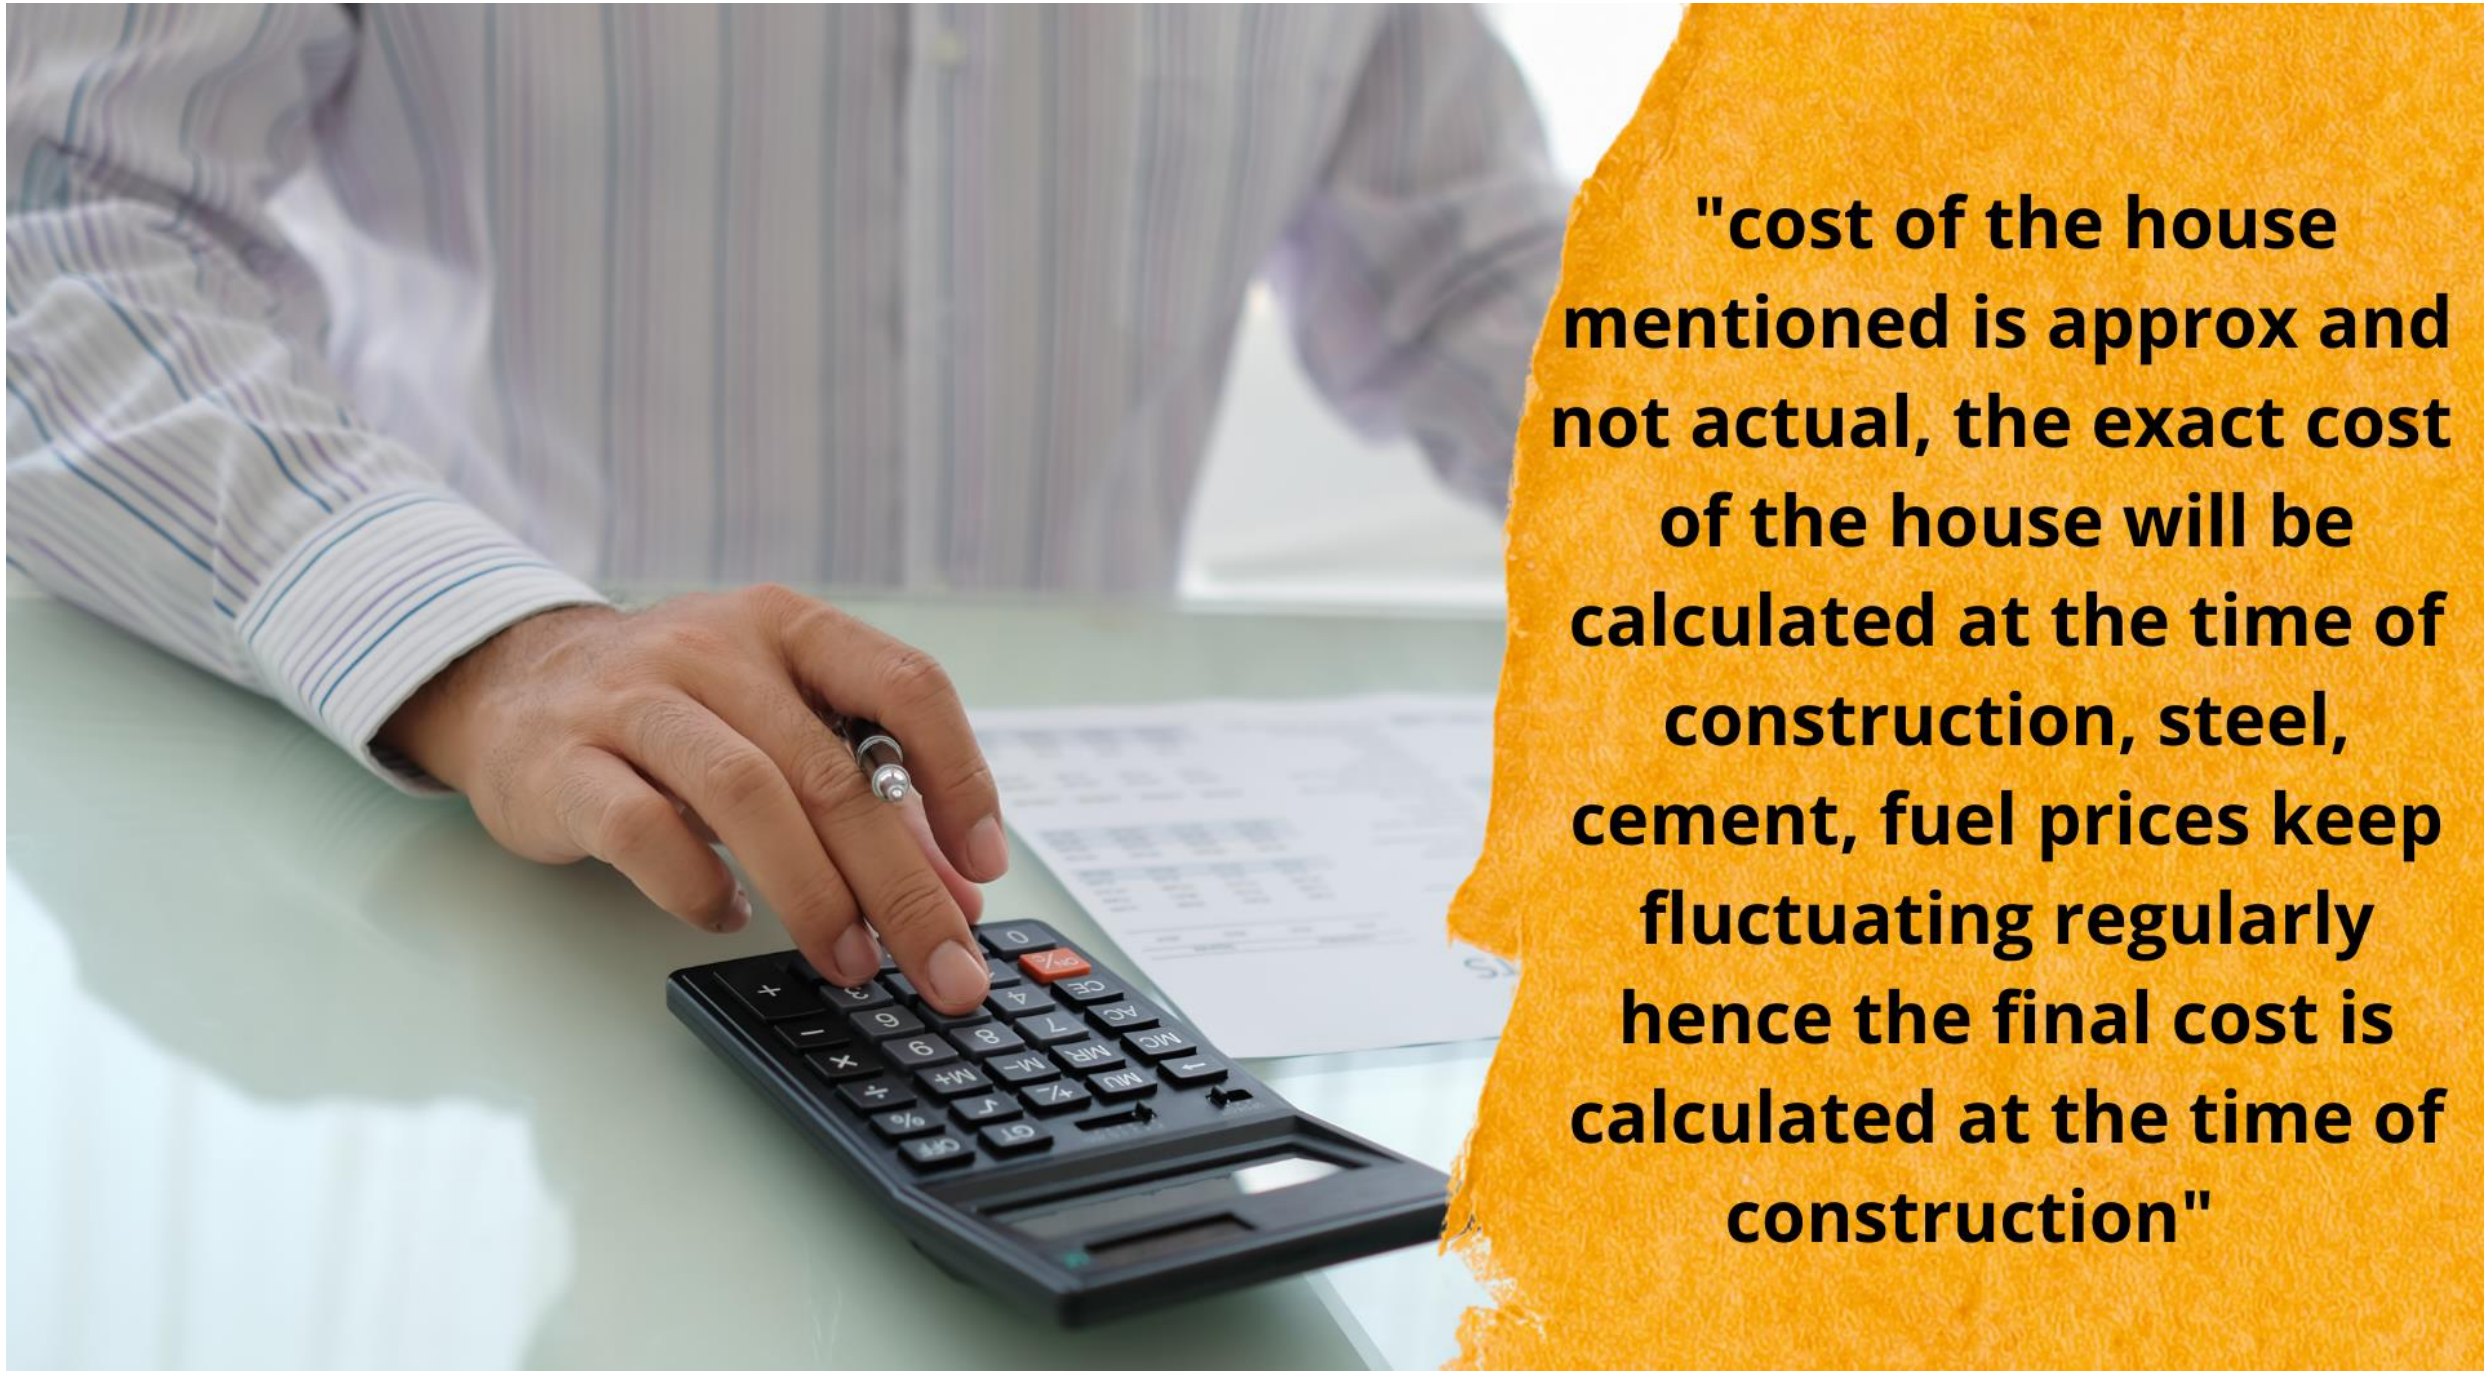
TERMS AND CONDITIONS



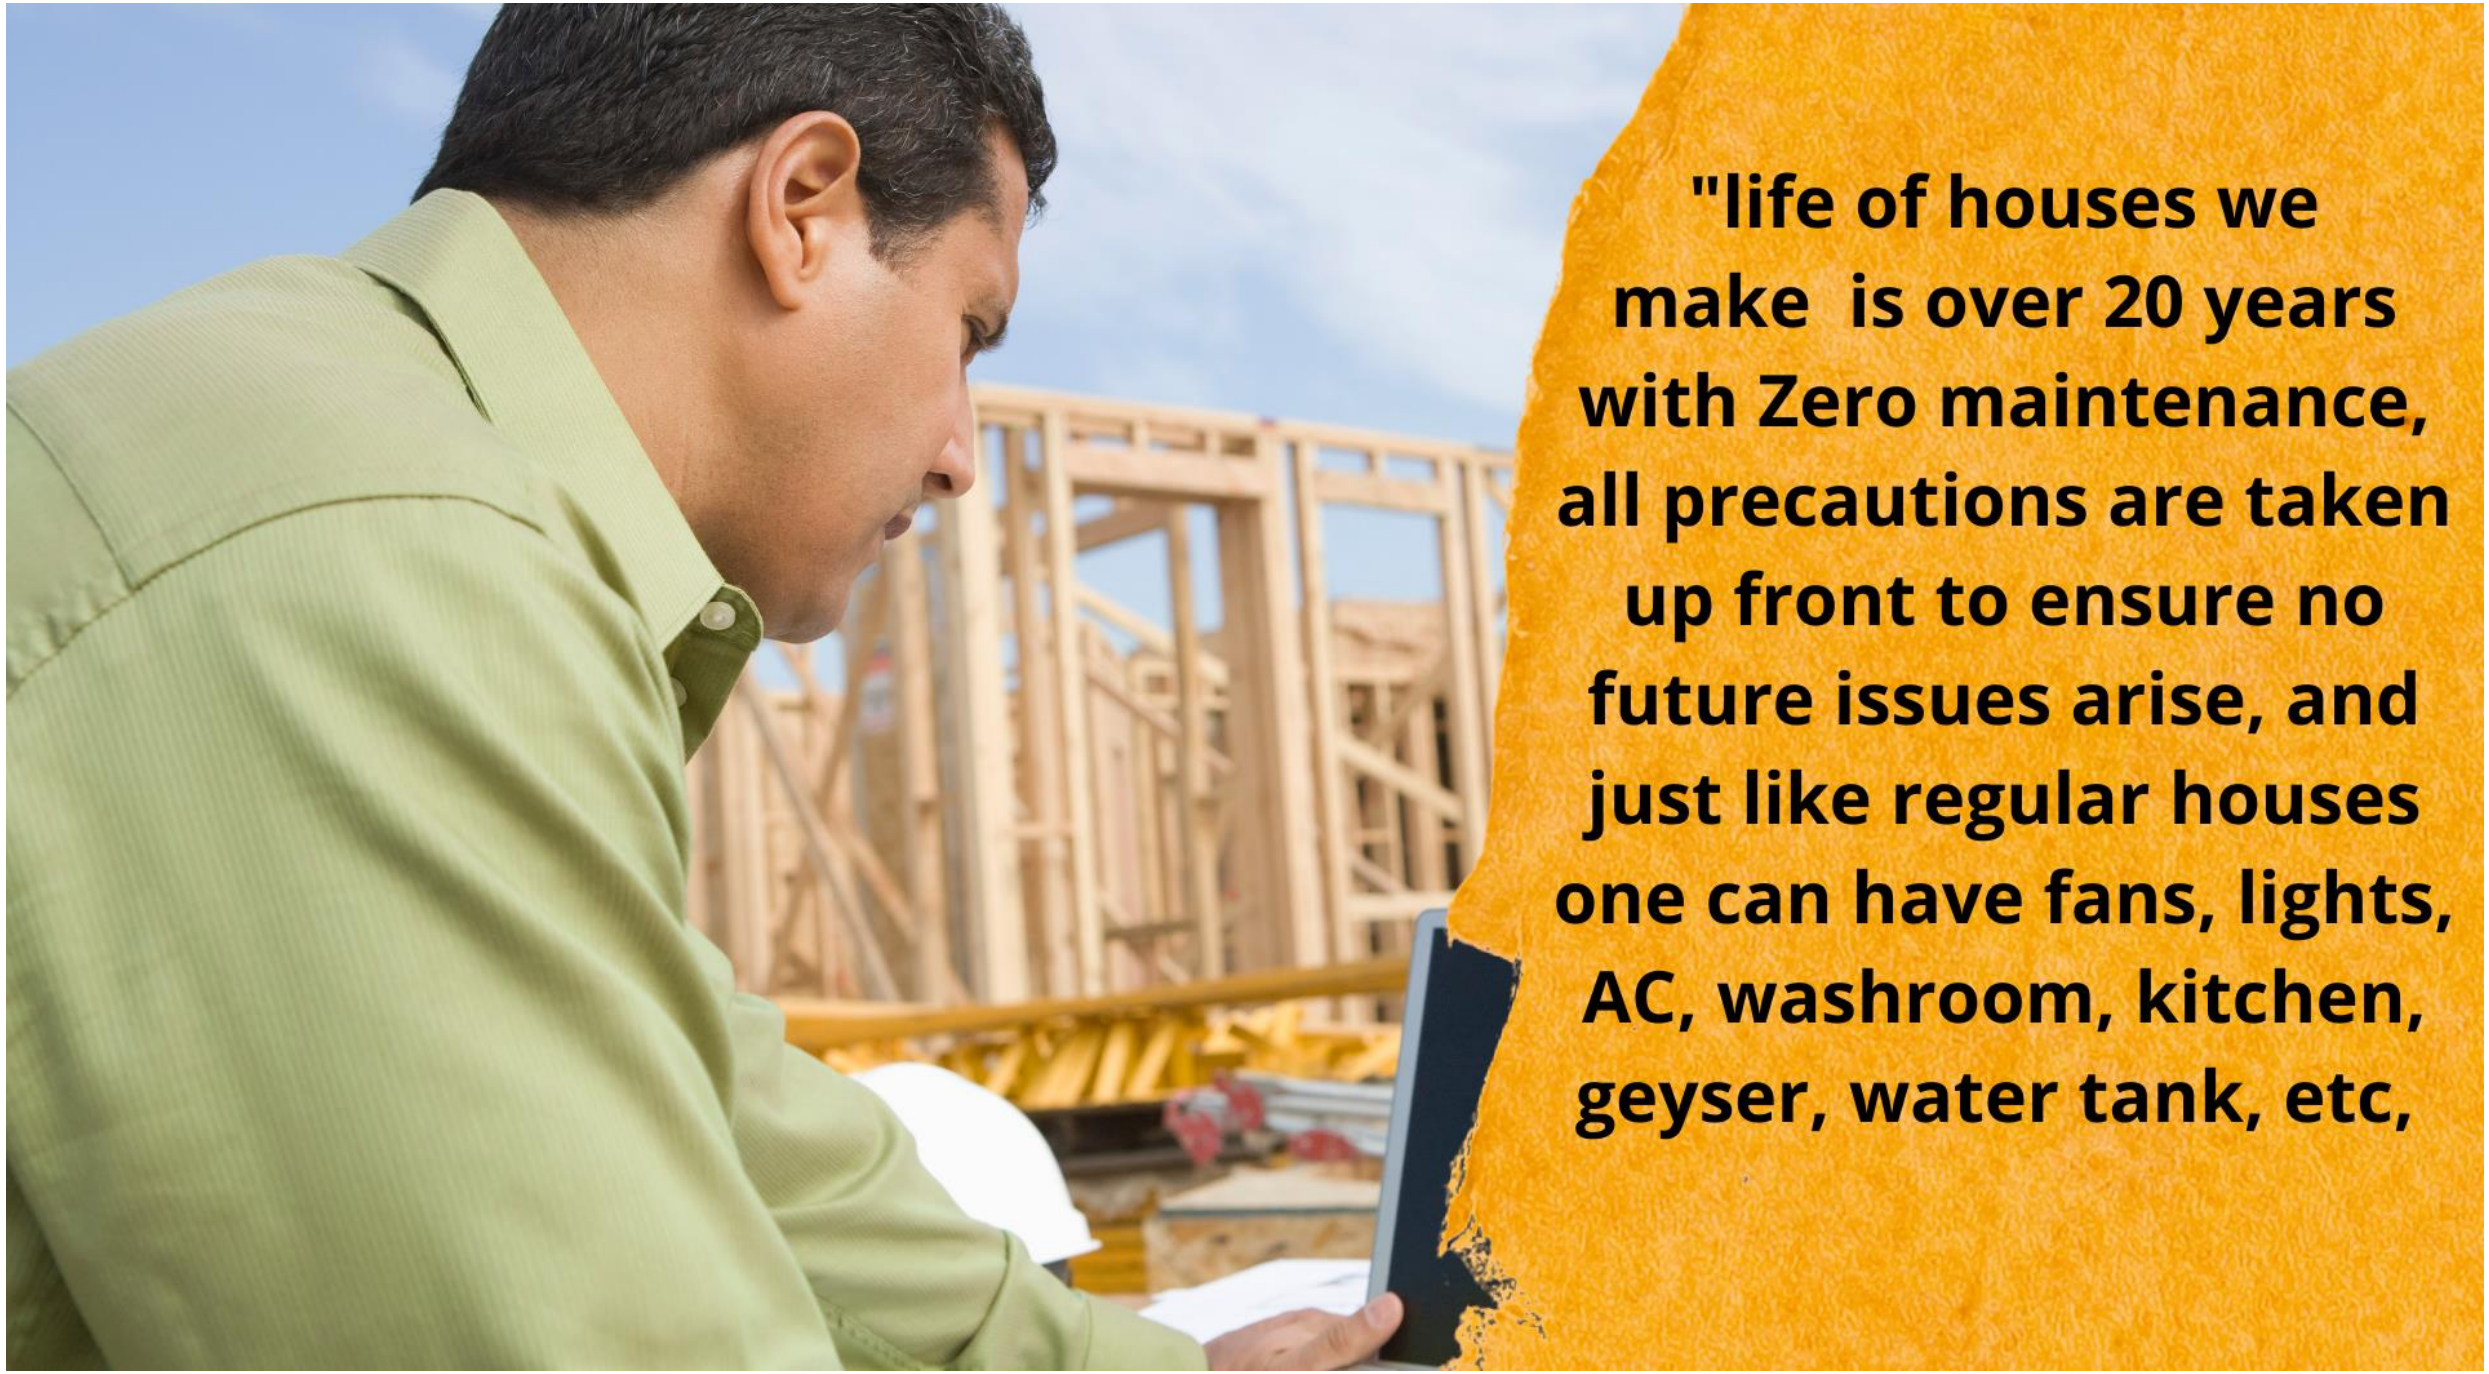
"cost of the house mentioned is approx and not actual, the exact cost of the house will be calculated at the time of construction, steel, cement, fuel prices keep fluctuating regularly hence the final cost is calculated at the time of construction"

"house cost mentioned is Ex Hyderabad and does not include costs for foundation, civil works, flooring, plumbing, and electrical works and has to be borne by the customer by arranging his/her local labor. We will guide your local labor but cannot arrange it."

"it can take anywhere between 15-60 days to construct a house, this is just a thumb rule, site and local conditions decide the timelines"

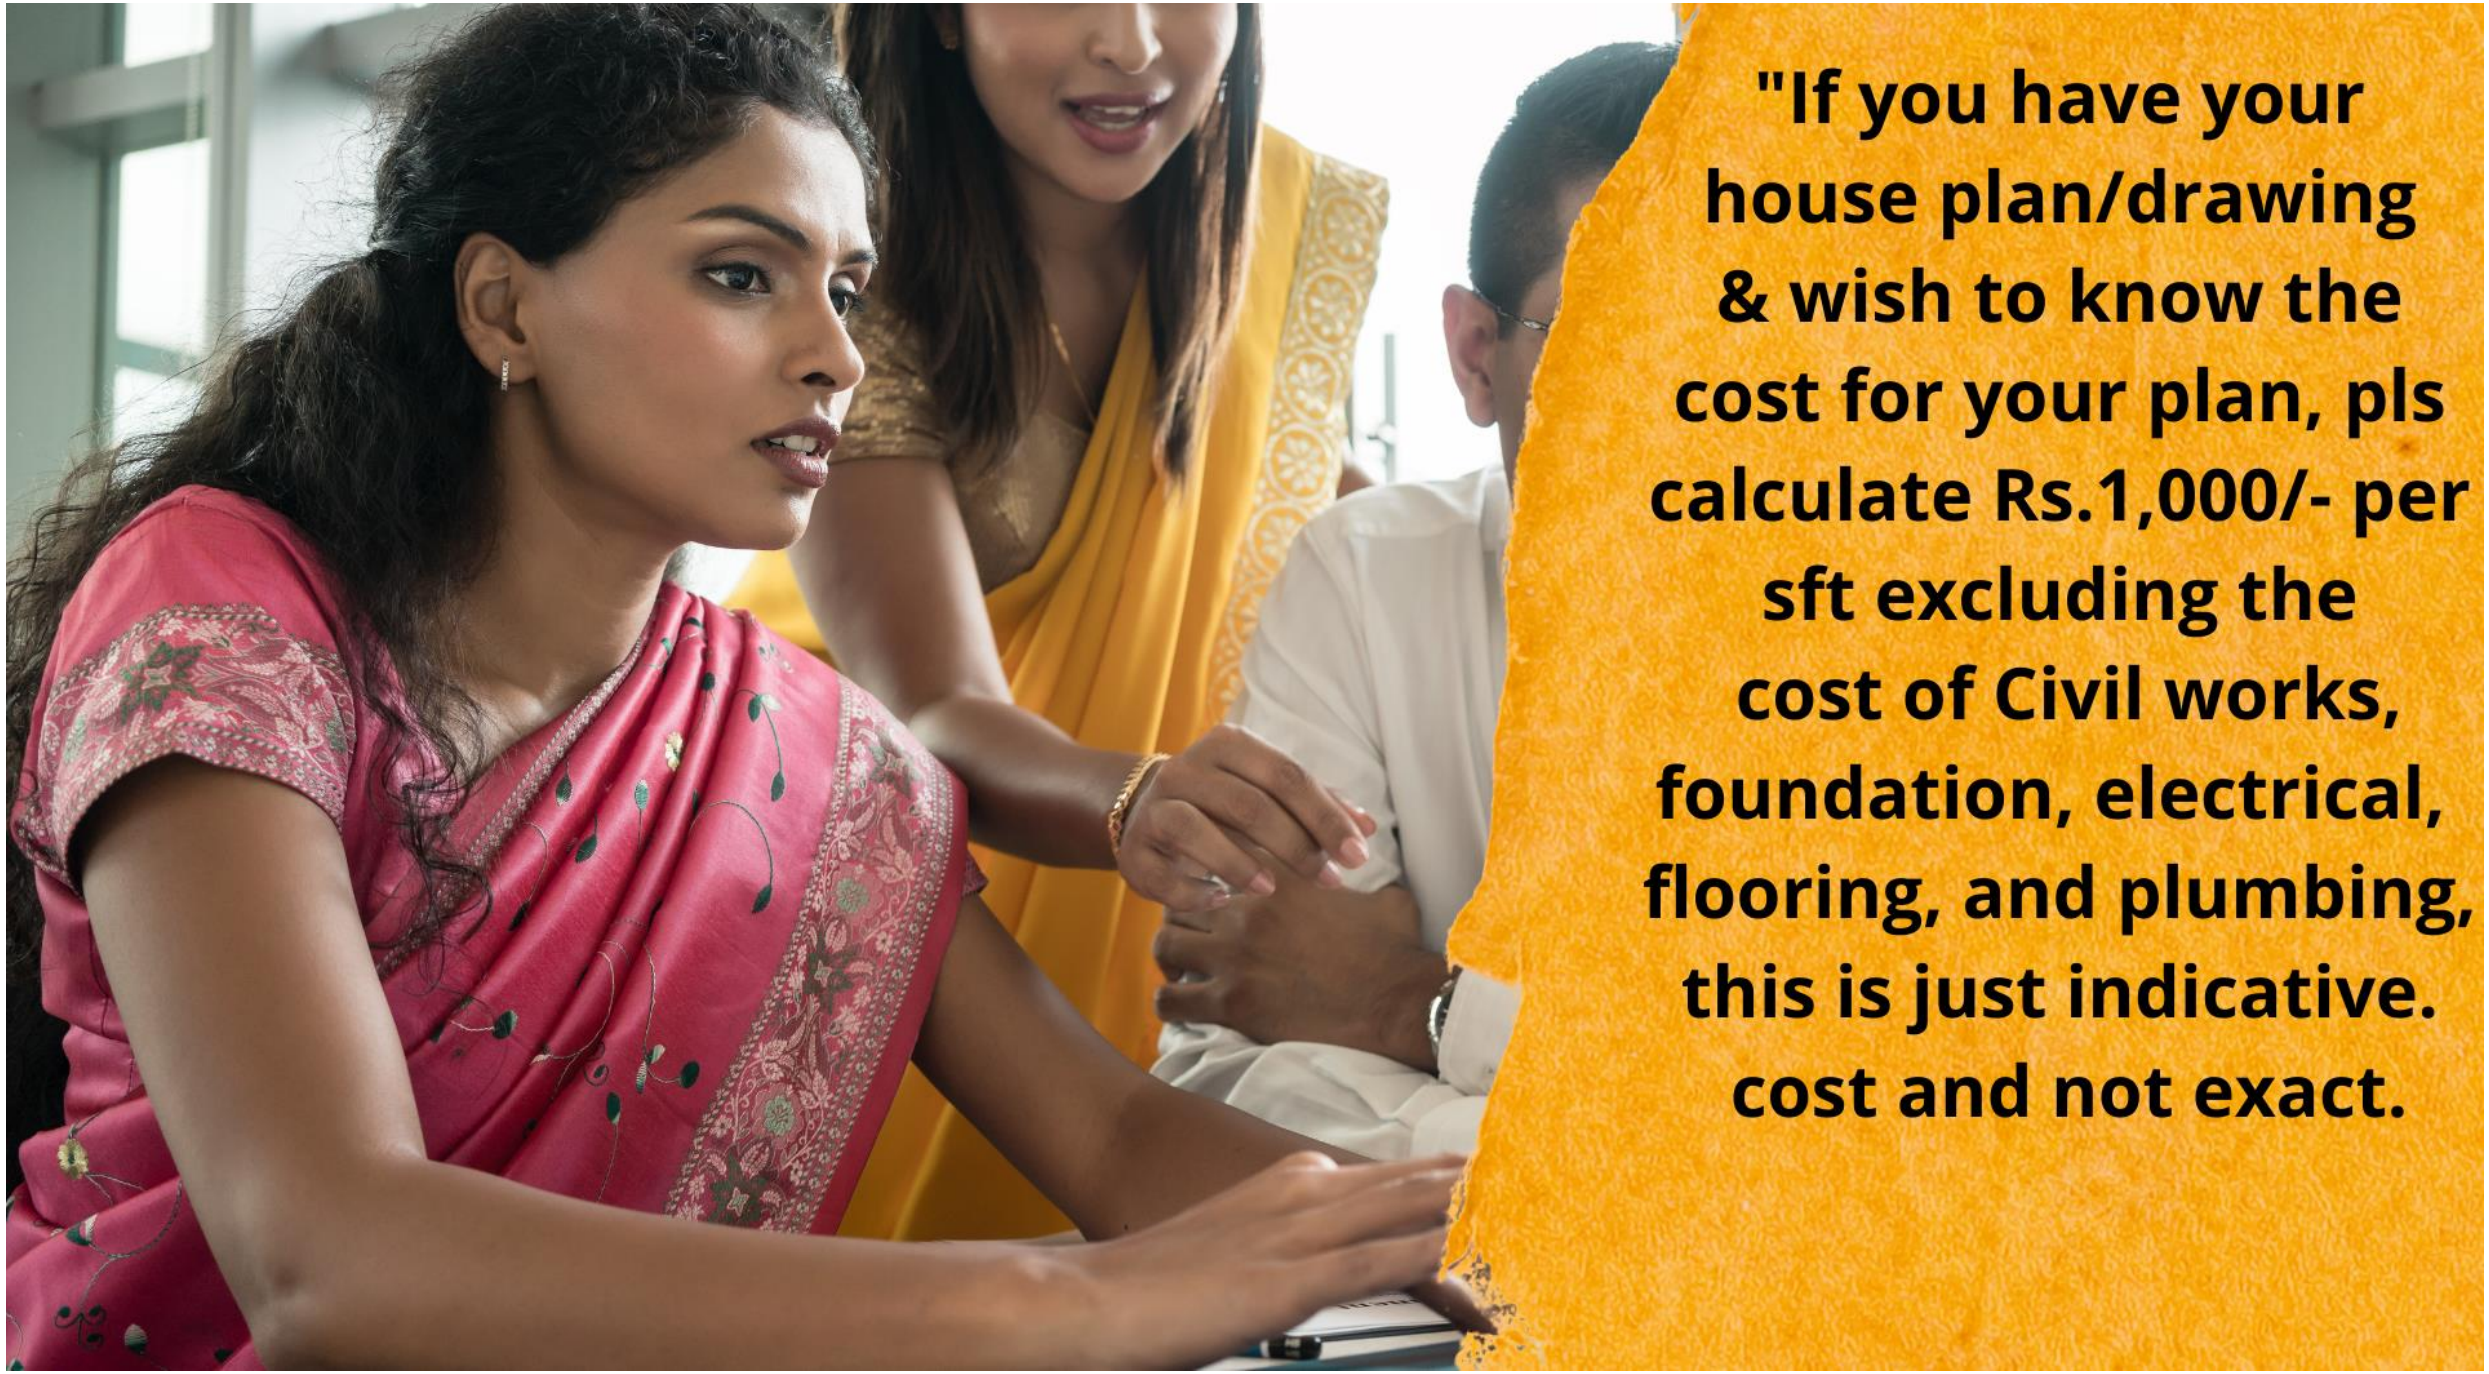
"cost of foundation, civil works, flooring, electrical, and plumbing for the house depends on the choice of materials used and there is no standard cost rule, it directly depends on the aesthetic and budget needs of the user.

"We give commitment for our part of work and attend repairs at our cost in the first year of construction but do not take repair responsibility for civil works, flooring, electrical and plumbing materials & works as it is in the scope of the customer"



"life of houses we make is over 20 years with Zero maintenance, all precautions are taken up front to ensure no future issues arise, and just like regular houses one can have fans, lights, AC, washroom, kitchen, geyser, water tank, etc,

"We provide our housing services depending on the project size, budget, and location, the customer is requested to check with us if we will be able to take up his requirement"



"If you have your house plan/drawing & wish to know the cost for your plan, pls calculate Rs.1,000/- per sft excluding the cost of Civil works, foundation, electrical, flooring, and plumbing, this is just indicative. cost and not exact.
